Hours for all Open Houses are 3:00 p.m. – 9:00 p.m.

The U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement (OSM), is hosting Public Scoping Poster Information Open Houses as part of its preparation of an EIS under the National Environmental Policy Act of 1969 for the Stream Protection Rule that it plans to propose.

The Open Houses will provide an opportunity for the public to review information regarding the principal elements of the proposed action and possible alternatives; provide oral and written comments regarding the scope of the issues to be addressed; and identify significant issues. The EIS will examine the environmental impacts of potential revisions to OSM rules under the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. §1201 et seq.), particularly as these revisions affect the protection of streams from the impacts of surface coal mining operations nationwide.
